

For the love of the outdoors.

EverGreen® ULV 5-25 AIR is specifically formulated for aerial ULV applications delivering fast, effective knockdown and kill of mosquitoes

The Pyrethrum in EverGreen ULV 5-25 Air is a botanicallybased contact insecticide synergized for maximum results and to combat metobolic resistance.

- · Contains pyrethrins, a botanical insecticide
- EverGreen ULV 5-25 Air flushes mosquitoes within harborage and hiding areas to maximize contact with the ULV cloud for a faster and more complete kill
- Formulated with a higher density solvent for improved drift control and aerial targeting
- For use over growing crops, ornamentals or agricultural areas
- Do not apply more than 0.2 lbs pyrethrin/acre/year or 2.0 lbs PBO/acre/year
- More frequent treatments may be made to prevent or control a threat to public and/or animal health determined by state, tribal, local health or vector control agency on the basis of documented evidence of disease causing agents in vector mosquitoes or the occurrence of mosquito-borne disease in animal or human populations, or if specifically approved by the state or tribe during a natural disaster recovery effort

- This concentrate is formulated to be diluted with a suitable oil diluent
- Controls adult mosquitoes that are considered vectors of infectious diseases

Kills adult mosquitoes by contact

Ultra-Low Volume (ULV) for the control of mosquitoes in or near residential areas, industrial, commercial, urban, recreational areas, woodlands, golf courses and other areas where these pests are a problem

BEST PRACTICES

Use EverGreen ULV 5-25 Air as part of an IVM (Integrated Vector Management) program and rotational adulticide solution

Please review the label for all required Use Restrictions and Personal Protective Equipment (PPE) requirements

To avoid possible harm to honey bees and other beneficial insects. it is advisable to apply when the non-target insects are not visiting the treatment area

To ensure best product performance, coverage is key. Use properly calibrated equipment to provide the best coverage and optimal droplet size

For the love of the outdoors.

PRODUCT SPECIFICATIONS

Signal Word	Caution
Packaging	30 gallon drums
	55 gallon drums
	330 gallon totes
EPA Registration Number	1021-1569
	Can be applied over agricultural areas
Stability	Agitation recommended; not required. If left diluted in tank, make sure to agitate before use
Appearance	Clear, amber-brown colored liquid
Odor	Mild sweet odor
Active ingredients	pyrethrins, PBO
Flammability	OSHA – Combustible liquid
Mode of Action	Sodium channel modulator – disrupts insect nervous system
Class of Chemistry	pyrethrins, synergist
Respirator Required	Only required for indoor areas
Mix or Dilute in	oil diluent only
Activity	Kills by contact
Shelf Life	3 years in original commercial packaging stored at room temperature
Median Droplet Size (VMD)	$<$ 60 microns (Dv 0.5 $<$ 60 μ m); 90% of spray is contained in droplets smaller than 80 microns (Dv 0.9 $<$ 80 μ m)
Speed	The effects of flight speed and, for non-rotary nozzles, nozzle angle, on the droplet size spectrum must be considered
Maximum daily application rate	0.0025 lbs. pyrethrin/acre 0.025 lbs./acre PBO
Release Height;	
- Fixed wing	100 feet above ground or canopy
- Rotary wing	75 feet above ground or canopy
