

Technical Bulletin

Vendetta® 360 COCKROACH GEL BAIT

Vendetta® 360 is the ideal rotational cockroach gel bait in an advanced roach defense system, combining a novel food matrix with two modes of action. Vendetta 360 is designed for crack and crevice applications where cockroaches live and harbor, providing an easy-to-use formulation for effective control.

Features and Benefits

- Consistent performance across a range of dietary conditions
- Contains NyGuard® IGR to help disrupt cockroach development
- Suitable for use in sensitive accounts, including food handling areas while in operation
- Stays solid in high heat and dispenses smoothly for consistent application

Product Specifications

Key Target Pest(s)	Cockroaches, including German cockroaches and American cockroaches
Signal Word	Caution
Form	Gel bait
Active Ingredient(s)	Clothianidin; Pyriproxyfen
Class of Chemistry	Neonicotinoid (4A); Juvenile hormone receptor modulator (7C)
Activity	Ingestion; insect growth regulator
Mode of Action	Nicotinic acetylcholine receptor competitive modulator; Disrupt and prevent metamorphosis
Stability	If frozen, rewarm before use. Extended storage in high heat may cause bait to darken in color.
Flammability	Not listed as flammable or combustible
Odor	Dog food
PPE Requirements	None listed
Retreat Interval	None listed
Mix or Dilute In	Ready to use
Shelf Life	3 years or more in ideal storage conditions

additional information.

Packaging

- Clamshell unit (4 x 30 gram tube, 5 per case)

Use Sites

Indoor Areas

- Commercial buildings
- Food and non-food areas
- Industrial areas
- Residential homes
- Transportation equipment

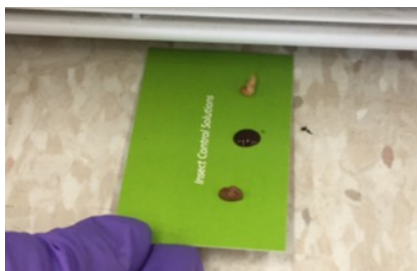

Application Methods

- Spot treatment
- Crack and crevice

Best Practices When Using Vendetta 360 Cockroach Gel Bait

To assess bait aversion, place small amounts of different cockroach baits on a business or index card near a harborage area and monitor bait consumption. If cockroaches consistently consume one bait over the others, bait aversion may be present.

Cockroach Bait Solutions That Work Together

Incorporate Vendetta 360 into a bait rotation program with other Vendetta cockroach gel baits. Rotating active ingredient groups and bait formulations throughout the year helps delay the development of behavioral resistance and active ingredient resistance while providing options for maintenance, cleanouts, and varying infestation levels.

Active Ingredient Rotation: **Abamectin**

Maintain control (low infestations)

- Highly palatable to bait averse and non-averse cockroaches

Gain control (medium infestations)

- Highly palatable to bait averse and non-averse cockroaches
- Contains NyGuard IGR – PMP insurance policy for AI resistance

Active Ingredient Rotation: **Clothianidin**

Ideal for cleanouts (heavy infestations)

- Highly palatable bait matrix
- No signal word
- Contains NyGuard IGR – PMP insurance policy for AI resistance

Ideal rotational bait with unique food matrix

- Highly palatable matrix to address bait aversion
- No signal word
- Contains NyGuard IGR – PMP insurance policy for AI resistance

MGK Sustainability in Action

- Formulated without Big 8 allergens (includes soy)
- Syringe, piston and plunger are 100% recyclable
- Formulated in a production facility that uses 100% renewable energy
- Precise application reduces waste with lowest effective quantity of bait dispensed
